EPA, NC DEQ, and Multistate Trust Hold Public Meeting about Kerr-McGee Superfund Site in Navassa, North Carolina, Dec. 7, 2016

Contact Information: Davina Marraccini (EPA) at 404-562-8293 or marraccini.davina@epa.gov; Jamie Kritzer (NC DEQ) at 919-707-8602 or jamie.kritzer@ncdenr.gov; or Richard Elliott (Multistate Trust) at 617-953-1154 or re@g-etq.com

ATLANTA – Federal and state officials and Multistate Trust representatives will host a public information session on Dec. 7, 2016 to update residents about the ongoing environmental investigation and upcoming work at the Kerr-McGee Chemical Corporation Superfund Site (Site). During the meeting, officials will also share general information about the redevelopment process for the Superfund Site and answer questions.

What: Kerr-McGee Superfund Site Update

Who: L'Tonya Spencer, EPA Community Involvement Coordinator;
Erik Spalvins, EPA Remedial Project Manager;
Dave Mattison, N.C. Department of Environmental Quality Project Manager;
Cindy Brooks, Multistate Trust Managing Principal; and
Richard Elliott, Multistate Trust Project Manager

When: Wednesday, December 7, 2016
6:00 to 8:00 p.m.

Where: Navassa Community Center
338 Main Street, Navassa, NC

Kerr-McGee Chemical Corporation and other companies used the 251-acre Site for creosote-based wood treating from 1936 to 1974. Kerr-McGee dismantled the wood-treatment buildings and facilities by 1980. The Site is bounded to the east by the Brunswick River, to the south by Sturgeon Creek, to the west by a residential area, and to the north by a light industrial area with an active CSX rail line. The soil, sediment and groundwater are contaminated by creosote-related contaminants. The groundwater generally flows south and southeast toward the marshes, Sturgeon Creek, and the Brunswick River. Site contamination does not currently threaten people living and working near the Site.

The meeting is being hosted by the U.S. Environmental Protection Agency (EPA), the N.C. Department of Environmental Quality (NC DEQ), and the Multistate Environmental Response Trust (Multistate Trust). The court-appointed Multistate Trust is working with EPA and NC DEQ on the investigation and remediation of the Superfund Site and the planning for Site redevelopment.
